### SGCS Administration and Board proudly announce the charter renewal of our school

On February 27, 2017, East Penn, our housing district, and EPSD Board of Directors approved the 5 year renewal of SGCS charter.

We are excited to continue to offer our unique community and environment based educational program to children throughout the Lehigh Valley.

Wondering how our students feel about their Seven Generations educational experience?  
Enjoy reading some of their reflections below.

*"Seven Generations is unique because of our mission and vision. Each class is different in its own way. In our grade, we are sustainable by leaving no trace and by using the green and blue recycling bin and pack-in and pack-out.*

*We connect with our community by collecting data for the Wildlands on Chestnut Nursery to fight the blight.*

*We held a Science and Technology night for our community .*

*We use our hands and minds to be creative. We did this by creating an 7Gen Arboretum with maps and field guides.*

*We are proud, excited, and happy to be a part of the Seven Generations Community."*

Grade 2 students

*"SGCS is a special school. In our grade, we practice sustainability by reusing and re-purposing things for projects and packing in and out every day. We connect with our community by writing letters to the mayor to share our concerns about our local pond. We use our hands and minds by writing and reporting*

*use our hands and minds by writing and reporting weather forecasts as meteorologists and teaching others how to stay safe in dangerous weather systems. We are proud to be part of the Seven Generations ". "*

Grade 1 students

*"SGCS is an environmentally friendly school. Our school provides a sustainable learning experience that emphasizes respecting the earth, nature, and communities to create generations of student and teacher stewards.*

*7Gen is rich with project learning, exciting systems learning, integrated learning, and EIC based curriculum that embraces the world and each other.*

*We are not afraid to get our hands dirty and are encouraged to be creative and artistic.*

*We observe, don't disturb because we are all connected in the web of life.*

*We are thankful for our awesome school. "*

Grade 5 students

*"In every deliberation, we must consider the impact of our decisions on the next Seven Generations."*
