

## Sun Protection Measures for Students

In October 2018, the Pennsylvania School Code was amended to include a section on Sun Protection Measures for Students. Section 1414.10 states that a school entity shall allow the application of sunscreen during school hours, at a school-sponsored activity, or while under the supervision of school personnel. The full legislation, found on the Pennsylvania General Assembly's website can be accessed at the following website: [www.legis.state.pa.us](http://www.legis.state.pa.us).

Parents/guardians may choose to supply their child with **non-aerosol topical sunscreen, if it is approved by the U.S. Food and Drug Administration**. Parents/guardians, along with the student, must complete and submit this form in order for their child to apply sunscreen during school hours, at a school-sponsored activity, or while under the supervision of school personnel.
